Celebrating One Year

Youngstown: Robert Merva announces the one year anniversary of the opening of his business - Avrem Technologies, LLC located in downtown Youngstown, Ohio.

Avrem Technologies, LLC, founded July 23, 2007, provides a variety of consumer and business technology services including PC repair, Web development and design, and home and office networking. The company is serving and developing a customer base that includes clients and businesses from the local area and throughout Ohio and Western Pennsylvania.

Repair work is performed on workstations, laptops and servers. Also available are a wide range of services, including custom computer builds, equipment installations and integrations, correcting and troubleshooting software-based problems, virus and spyware removal, addressing network security issues and performing security audits, performing data recovery operations, and more. Additionally, the company offers Website development, set-up and administration and rigorously follows the W3C (World Wide Web Consortium) standards for compliance, interoperability and accessibility.

The company is an authorized HP Partner, Linksys Partner, AVG Reseller, Microsoft Partner and member of the Regional Chamber of Commerce.

Robert Merva, Owner and CEO, is a lifelong valley resident from Campbell, Ohio, and has ten years experience in the computer industry. “Our business philosophy is simple”, states Merva, “We want to be the best business we can be and we do that by building strong relationships with our clients, providing excellent service and only using top quality parts.”

The company is located at 316 West Federal Street, Youngstown, Ohio 44503. They are open from 9:00 am until 6:00 pm, Monday through Friday and can be contacted at (330) 881-5102 or info@avrem.com. Their website may be viewed anytime at <http://www.avrem.com>.
